PROVIDER DIRECTORY

This directory provides a list of your plan's network providers.

This directory is for the plans listed on the cover. It is not a complete list of network providers available to you. You can search for a network provider online, which is updated weekly and available 24 hours a day, 7 days a week.

This directory is current as of **July 10, 2017**. Some network providers may have been added or removed from our network after this directory was printed. We do not guarantee that each provider is still accepting new members.

There are approximately 17303 primary care providers, 25832 specialists and 236 hospitals in your network.

For the most up-to-date information about the plan's network providers in your area:

Visit **www.MyAARPMedicare.com** or call the UnitedHealthcare Customer Service Department toll-free at **1-800-950-9355**, 8 a.m. - 8 p.m. local time, 7 days a week. TTY users should call **711**.

Plans are insured through UnitedHealthcare Insurance Company or one of its affiliated companies, a Medicare Advantage organization with a Medicare contract. Enrollment in the plan depends on the plan's contract renewal with Medicare.

Providers are prohibited from discriminating against any member, with regard to quality of service or accessibility of services, on the basis of race, ethnicity, national origin, religion, sex, age, mental or physical disability or medical condition, sexual orientation, claims experience, medical history, evidence of insurability, disability, genetic information, or source of payment.

Section 1

INTRODUCTION

This directory provides a list of the plan's network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage.

What is a primary care provider?

A primary care provider (PCP) is the doctor who may see you on a regular basis as your main doctor.

Your PCP can help you:

- Make smart lifestyle choices to help improve and maintain your health
- Get preventive care and health screenings
- Better understand your medical conditions
- Coordinate any specialist care to help avoid duplicate and expensive tests. Your plan may require your PCP to coordinate any specialist care you receive
- Manage your prescriptions and identify possible harmful interactions

How to choose a primary care provider (PCP)

You will have to choose one of our network providers to be your primary care provider (PCP). PCPs are listed in the **Primary Care Provider** section of this directory. The term PCP will be used throughout this directory.

If you choose a PCP who is not taking new patients, UnitedHealthcare may assign you to a different PCP. If this happens, you can switch to another PCP who is accepting new patients.

Your PCP plays an important role in your health care and we want you to be comfortable with the provider you choose. If you want to switch providers, call UnitedHealthcare Customer Service toll-free at **1-800-950-9355**, **8 a.m. - 8 p.m. local time, 7 days a week**. TTY users should call **711.**

Referrals from your PCP

Your PCP can handle most routine health care needs. If you need to see a network specialist or other network provider, you may need to get a referral from your PCP. Your PCP will make a referral based on your health situation. They may or may not refer you to a particular specialist in this directory who you want to see. Generally, your PCP will provide follow-up care, as needed. Please see the Evidence of Coverage for information about access to specialists.

This directory provides a list of skilled nursing facilities for all networks. Contact your PCP for a referral to a network skilled nursing facility.

The "network providers" listed in this directory have agreed to provide you with your health care coverage. However, some services may require a referral. If you have been going to one network provider, you are not required to continue going to that same provider. Check your Evidence of Coverage to make sure your plan includes additional benefits or that you've signed up for optional supplemental riders before making appointments for dental, vision or hearing services.

If I need emergency or urgent care

A **medical emergency** is when you, or any other ordinary person with an average knowledge of health and medicine, believe that you have symptoms that require immediate medical care to prevent death, loss of a limb, or loss of function of a limb. The medical symptoms may be an illness, injury, severe pain, or a medical condition that is quickly getting worse.

If you have a medical emergency, get help as quickly as possible. Call 911 or go to the nearest emergency room or hospital. Emergency care can always be obtained in or out of the service area from the nearest available provider. Emergency services are also covered whether a provider is in our network or not. You or someone else should call and tell us about your emergency care, usually within 48 hours.

Urgently needed care is a non-emergency, unforeseen medical illness, injury, or condition, that requires immediate medical care. If you need urgent care when in the service area, you must use plan providers for urgent care. When out of the service area, urgent care may be obtained from the first available provider whether the provider is in our network or not. In addition, when out of the service area, you can obtain dialysis treatment from any qualified dialysis provider. If you obtain routine care from out-of-network providers neither Medicare nor your Plan will be responsible for the costs.

If you get a bill

There may be times when you get a bill from a provider for the full cost of medical care you have received. In many cases, you should send this bill to UnitedHealthcare instead of paying it. We will look at the bill and decide whether the services should be covered. If we decide they should be covered, we will pay the provider directly. Please see your Evidence of Coverage for more information.

If you're on Medicare and Medicaid

If you're a Qualified Medicare Beneficiary (QMB), your doctor may not bill you for deductibles, co-pays or co-insurance for Medicare-covered services, except for Part D prescription drug co-pays. Please show your member ID card and your state-issued Medicaid member ID card when you see the doctor or use other plan services. This will help ensure you're billed for the correct amount.

Accessing your mental health benefits

You need a referral to access your mental health benefits. Please call UnitedHealthcare Customer Service at the toll-free number listed on your member ID card. Depending on your provider, you will be referred back to your PCP or to United Behavioral Health to access these benefits.

If you switch to a PCP who is in a different medical group/IPA, any mental health referrals you have may no longer be valid. If you continue to receive mental health services without a new referral from your new PCP, you may have to pay for the full cost of those services.

If your medical group/IPA has you access your mental health benefit directly through United Behavioral Health, you should contact them. When you call, a representative will check your eligibility and get basic information about you and your situation. Your personal information will be kept strictly confidential.

Organ transplant services

Your plan has a nationwide network of facilities that perform organ transplants (including the heart, lung, liver, intestine, kidney, bone marrow and/or pancreas). Solid organ transplants must be performed at a facility that is currently Medicare-approved for your specific type of transplant. The complete list of your plan's facilities that are approved by Medicare may change throughout the year. For information on network facilities for transplant services, please call UnitedHealthcare Customer Service toll-free at **1-800-950-9355**, TTY **711.**
